

## ConstructionKids, Inc.

### Position: Counselor

#### About Our Summer Camps

ConstructionKids' Summer Camps are known for the dynamic projects kids build. Each program encourages collaboration as well as the advancement of individual building skills. As a group, we construct large-scale projects to play with in the workshop (or take outdoors); while individually each child is free to create smaller projects on his or her own. We teach safe, appropriate tool usage, along with drawing, painting, and creative play. Our goal is to foster each child's confidence that their skills at designing, making, repairing, and revising are unlimited—like their imaginations.
